## PROFILE

Programmer with 2 years of experience, specializing in solving complex problems and effective communication, and possessing a strong ability to quickly grasp new technologies.

## EMPLOYMENT HISTORY

### Software Engineer at Quantive, Sofia

November 2021 — November 2023

Quantive is the world's leading strategy execution software and services company inspired by the objectives and key results methodology. My expertise extended to problem-solving, addressing bugs and errors for flawless user experiences. Additionally, I contributed actively to the development of new features, working seamlessly within my daily responsibilities at Quantive. I optimized application performance by identifying bottlenecks and writing efficient code. My role encompassed communication, problem-solving, error resolution, new feature development, and performance enhancement, contributing to successful software development.

## EDUCATION

### Software Engineer, SoftUni, Sofia

May 2018 — November 2021

With a completed course at SoftUni with honors, my skills encompass a broad spectrum of topics, including programming, algorithms, data structures, and coding in C# and Javascript.

### Bachelor's degree in IT Analysis and Business Strategies., VUZF, Sofia

September 2017 — June 2021

I have completed a bachelor's degree with a focus on the business aspects of programming, acquiring extensive knowledge in the field of information technology. By combining these insights, I have successfully contributed to team projects, utilizing my technical skills to create innovative solutions.

## COURSES

### Angular, Udemy

January 2022 — April 2022

### HTML & CSS , Udemy

June 2022 — July 2022
